ABOUT

Angular Developer with 3 years of experience in building high-quality web applications. Skilled in Angular, TypeScript, and JavaScript, with additional experience in React and backend development using Node.js. Strong expertise in coding, debugging, and optimizing solutions to ensure seamless user experiences. Proven ability to mentor team members, follow Agile practices, and deliver projects on time with minimal defects.

EXPERIENCE

MEAN STACK DEVELOPER

Infosys limited

NOV 2021 – SEPT 2024 trivandrum, India

- Develop and maintain front-end features using Angular and TypeScript based on user stories and requirements.
- Collaborate with cross-functional teams to design, develop, and implement scalable web components, Adobe data layer integration .
- Debug and resolve production issues with fast turnaround, ensuring high-quality code with minimal defects.
- Assist the technical lead with design decisions and provide input on key architecture discussions.

PROJECTS

Logistics platform for CN client

MEAN STACK

july-2022 - nov-2023 trivandrum,india

A modular web application using Angular and Node.js, optimizing for performance

A webplatform Integrated with old platform to dispatch truck based on availability and send message to truck drivers

Reduced known defect occurrences by 20 percent through proactive issue identification and RCA

Using Agile methodology and used tools like jasmine karma for unit testing

Contributed to a 15 percentage improvement in module delivery time-lines by streamlining release processes.

Banking Application

Angular 16

Dec-2023 -Sept-2024 trivandrum, India

Front end based angular application for a banking client based on india .
Enhanced component design by implementing reusable modules, reducing the defect rate .

Led the front-end development of a dashboard using Angular and TypeScript

Implemented Adobe Data layer functionality across the application to record the events that user has clicked in the application

Done Manual testing before moving in the staging and production environments

EDUCATION

B.Tech in Electrical and Electronics Engineering

NSS Palakkad

2017-2021 Palakkad,kerala

CGPA:7.72

Higher Secondary Education

NSSHS Chathannoor

2015-2017 kollam,kerala

percentage:95.67
