

DOCTORS DIAGNOSTIC CENTRE PVT LTD
NEAR KARUNA CLINIC, KANDANADU KAVALA,
VAIKOM ROAD, UDAYAMPEROOR
Phone: 9497245911
Email: udayamperoora@ddclabs.in

Name: ARYA BABU

Doctor: SELF

Hospital: OTHERS

Phone: 8075203611

Age/Dob/Sex: 25/Female

Sample Collected at : 15-04-2025 08:16:02

Report on: 15-04-2025 14:22:13

Passport/Ship No:

SRD NO: IRNFA1500070

REF NO :

Ipop No:

Test Description	Value Observed	Biological Reference Interval
------------------	----------------	-------------------------------

DEPARTMENT OF BIOCHEMISTRY

CHOLESTEROL

169 mg/dl

<200mg/dl (Desirable)
200 - 239mg/dl (Borderline)
240mg/dl or greater (High)

Notes:

Test : Cholesterol Method : Enzymatic colorimetric method with CHOD POD Sample : Serum/Plasma

H-High, L-Low

**** END OF REPORT ****

Status: FINAL REPORT

Test Description	Value Observed	Biological Reference Interval
------------------	----------------	-------------------------------

DEPARTMENT OF BIOCHEMISTRY

BLOOD PRESSURE (BP)

110/60 mm/Hg

FASTING BLOOD SUGAR (FBS)

98 mg/dl

Diabetes Mellitus : > or = 126 mg/dl

Impaired Fasting glucose / Prediabetes : 101 - 125 mg/dl

Hypoglycemia : < 55 mg/dl

Notes:

Test : Fasting Blood Sugar Method : Enzymatic reference method with Hexokinase. Sample : Serum/Plasma.

Glucose is the primary source of energy for all bodily functions. The blood glucose level is strictly regulated by several hormones, including insulin and glucagon. Elevated glucose results can be associated with eating shortly before the blood sample was drawn, and/or suggest diabetes (hyperglycemia). Low glucose levels are termed hypoglycemia, and may be a cause of weakness or dizziness.

H-High, L-Low
