

# ASISH E S

## SOFTWARE DEVELOPER

### PROFILE

As a dedicated .NET developer of experience in designing, developing, and maintaining robust and scalable web applications, I aim to utilize my expertise in C#, ASP.NET, MVC, and SQL Server to contribute to innovative projects in a dynamic and forward-thinking organization. My goal is to collaborate with cross-functional teams to deliver high-quality software solutions, continuously improve my technical skills, and drive the adoption of best practices in software development to enhance overall bus

### COMPUTER SKILLS

**Web Development:** HTML5 , CSS3, JavaScript ,jQuery

**Programming languages:** C# (Object-Oriented Programming)

**.Net Technologies:** .Net MVC .Net Web API , ADO.NET

**Architectural Patterns:** Single Tier, Three Tier

**Others:** Git, Agile Methodologies, Figma , Trello

### EDUCATION

**2015 -2018**

**BSC in Information Technology**  
Calicut University, Thrissur, Kerala

**2013 -2015**

**Higher Secondary Education G V H S**  
S Thalikulam, Thrissur, Kerala

### WORK EXPERIENCE

#### ➤ NGXP Technologies

**Software Developer** **2024 june -Present**

- Developed and maintained\* high-performance web applications using C#, ASP.NET, and Entity Framework, ensuring scalability and reliability.
- Designed and integrated\* RESTful APIs with front-end technologies like Angular and React, enhancing user experiences and functionality

#### ➤ AITRICH ACADEMY THRISSUR

**Software Developer** **2023 July- 2024 March**

- ASP.NET Proficiency: Adept at developing web applications using ASP.NET, encompassing MVC and Web Forms.
- C# Programming: Possesses a robust command of the C# programming language, grounded in solid object oriented programming
- Front-End Tech Know-How: Proficient in front-end technologies, including HTML5, CSS3, and JavaScript.
- Database Design Expertise: Experienced in designing and managing relational databases, particularly skilled in SQL Server. Capable of crafting optimized TSQL queries and stored procedures.
- Version Control Proficiency -Proficiently employs version control systems, such as Git, for efficient source code management and collaboration with development teams.
- Security-Conscious Development: Demonstrates awareness of security best practices in web application development, including data encryption and robust authentication
- Effective Debugging and Troubleshooting: Possesses strong debugging and troubleshooting skills to swiftly identify and resolve issues.
- Agile Development Experience: Seasoned in working within Agile development environments, with a firm grasp of Scrum or other Agile methodologies.
- Testing Commitment: Familiar with unit testing frameworks and maintains a commitment to producing and sustaining high-quality, testable code.
- Performance Optimization Skills
